

# Calendars

that work.com™

## Be Dependable

“Getting Started” Guide

## CalendarsThatWork.com User, Who Are You?

You want printable calendars that look great without having to fuss with them. You also like being able to take the calendars and make some changes in Microsoft Word, if needed. You don't mind paying for software that gives you easy, excellent & correct results for a reasonable price. You also don't mind that your purchase supports my family with a new baby on the way!

### Get your First Calendar

1. Choose a calendar format from the left-side menu, clicking through so it looks like...
2. **The download page**; this is where the calendar-getting happens
3. Set your date options and click **'Get Your Calendar'**
4. The calendar is a Word .doc file; save then open in Microsoft Word
